## **Euro Aesthetics** Look out for unusual offerings from Hitchcock-influenced art to radical interior designs by star artists here now.

### **Cool Reflections**

Acclaimed French photographer Florence Notte presents her Urban Reflects exhibition at The Art Loft. Inspired by English pop artist David Hockney's swimming pool paintings, as well as auteur Alfred Hitchcock's film *Rear Window*, this collection of images offers you a new perspective on daily life, swimmers, the sky and landscapes — through reflections off urban buildings. Notte's *Regards Croises* (parallel glances) series, which was awarded a Creativity Prize by the French Photographer Federation in 2007, is also included in this exhibition.
